

What are Sibshops?

Sibshops are opportunities for brothers and sisters of children with disabilities and special health care needs to obtain peer support and education within a recreational context. The workshops are lively, pedal-to-the-metal celebrations of the many contributions made by brothers and sisters. Sibshops acknowledge that being the brother or sister of a person with special needs is for some, a good thing, for others a not-so-good thing, and for many, somewhere in between.
